

# PASSENGER PROTECTIVE EQUIPMENT

Freedman Seating, North America's leader in passenger seating and safety, introduces passenger protective equipment (PPE) to help protect passengers against the spread of germs and airborne viruses.

This new line of safety enhancement adds another layer of protection to the industry's most trusted seating products, which are always tested to meet or exceed motor safety standards. Freedman PPE has been developed to meet the demands of mass transit, shuttle bus and paratransit, school bus and more.

Protect passengers from sneezes, coughs, droplets and other airborne person-to-person threats and germs

## Passenger Guards

- Made from soft, clear vinyl
  - Replaceable
  - Easy to clean
  - UV and Mildew resistant
- Flexible material does not present a laceration hazard or hard impact surface
- Includes a high visibility "DO NOT TOUCH" sticker
- Easy to replace, yet not removable by riders
- Does not inhibit the use of most grab handles and the 202A Headrest
- Available on Freedman Feather Weight Mid-High, GO-ES, 3PT Mid-High, and most Foldaway seats\*

## Social Distance Seat Bands & Triangles

- Blocks passenger seats from being used
- Easy to add in the field
- Removable for seating reconfiguration
- Made of a durable, flat-woven fabric that is anti-microbial and moisture repellent
- Standard orange for optimal visibility
- Seat Bands available for single and double passenger seats, and seats with removable inserts
- Seat Triangles for school bus and other bench-style applications are made from the same durable fabric, wrapped around a hard filler to prevent seat occupancy
- Seat Triangles available in two widths: 27" (for seats 24" to 34") and 36" (for seats 36" to 45")

## Grab Rail Covers

- Made from Dimensions Nanocide vinyl with embedded silver, a natural antimicrobial
- Standard charcoal color
- Available on all Freedman grab rails (202A, Feather Weight AV and 3PT)
- Easy to add or replace in the field
- Easy to clean (follow manufacturer's cleaning guide)
